

Dashboard 1 – Executive Overview:

This dashboard provides a high-level view of EchoChain's circular economy and resale business performance from January 2021 to December 2025. It brings together financial, transaction, regional, platform, customer, and product-disposition metrics in a single Power BI page.

Dashboard 1 – Image Overview:

Key outcomes from the dashboard:

- 10,000 transactions were recorded, with an original product value of ₹697.01M and total resale revenue of ₹283.40M.
- The average resale price is ₹28,340.18, while the average circularity score is 60.72, indicating relatively strong circular-economy performance.
- Laptops generate the highest resale revenue at ₹70M, followed by Smartphones at ₹60M. Together, they contribute approximately ₹130M, making them the strongest product categories.

- Transactions span a global footprint, with activity concentrated across North America, Europe, and Asia.
- OLX records the highest transaction volume among platforms at 1,728 transactions, followed by Cashify with 1,682, indicating relatively balanced activity across resale platforms.
- The final-disposition analysis shows that 50.98% of products are resold, followed by 29.39% refurbished, 16.25% recycled, and 3.38% sent to landfill, reflecting strong circular-economy performance.
- Resale revenue grew steadily from ₹53.24M in 2021 to a peak of ₹58.84M in 2024, before dipping to ₹56.39M in 2025.
- Jaipur is the leading city with 539 transactions, followed closely by Kolkata (524), Guwahati (520), Mumbai (518), Surat (517), and Vijayawada (517), showing a fairly even distribution across cities.
- The average customer rating of 3.87/5 indicates a generally positive customer experience across the platform.
